

WAKE

That was one old dream...
Huh...?
Where am I?

...Ooh?
That's...

Huh? I'm busy with research.
I don't have time for your pets.

Adam!
Could you take a look at this guy for me, please?

RUSTLE

Would you look at that!
You're finally up, Kuro-suke.

!!

IF I hadn't sent Gauche to fetch you, you two would've died like dogs.

Your elf girl is fine, but you broke your promise to him again, huh?

Shortly after I fainted, we were picked up and rescued by a servant of that friend of mine, Adam...
I was then scolded for sending such a weak signal that it didn't even properly indicate our location... and for a ton of other things, too.

Your mana needs work!
You bastard!
Stop overworking yourself, idiot!
Stop trying to fight monsters, weakling!

Adam-san...
Long time no see.
